Portfolio

mansah-portfolio.vercel.app

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, React Native, Expo

Backend: FastAPI, Spring Boot, Node.js, REST APIs

QA & Testing: Cucumber BDD, Playwright, Postman, Manual testing, Regression testing

Databases: PostgreSQL, MySQL, Firebase, SQLite

DevOps & Tools: Git, Docker, CI/CD, Jira, Figma

Languages: JavaScript, TypeScript, Python, Java, C/C++

EDUCATION

ENSPD

Engineering Degree (Level 4) - Computer Science & Information Systems
2022 – 2027 (Expected)

Université de Lomé

Bachelor of Technology - Software Engineering & Computer Science
2021 – 2024

LANGUAGES

French : Native

English : Professional

PETNOU HONLUE FREDERIC ARMEL

Senior Frontend Engineer · QA Specialist · Product Builder

Product-oriented software engineer specializing in high-performance frontend architectures and robust test automation frameworks. Expert in delivering responsive web applications with modular React structures and preventive QA to ensure reliability.

PROFESSIONAL EXPERIENCE

QA Automation Engineer & Tester

Feb 2025 – Present

MELOAUD

Leading QA strategy, writing test automation scripts, and executing manual testing cycles.

- Mainly focused on testing and validation processes to ensure zero-regression releases.
- Implemented end-to-end BDD automation pipelines using Cucumber and Playwright.
- Collaborated with product and frontend engineering to establish QA standards and testing gates.

Founder & Technical Lead

Jan 2024 – Present

SOLUTY

Directing our agency Soluty, designing and developing custom software solutions for clients.

- Managing client relationships, requirements gathering, and technical design.
- Leading the design and delivery of responsive web applications and secure backend systems.
- Ensuring engineering excellence and clean code practices across all client deliverables.

Cybersecurity Instructor

Jan 2026 – Present

COMPASS INSTITUTE

Instructioning student groups on cybersecurity fundamentals, network defenses, and threat analysis.

- Delivering courses covering introduction to security, risk assessment, and basic networking principles.
- Leading hands-on laboratory sessions focusing on system hardening and security controls.
- Teaching network defense configurations and preparing students for foundational certifications.

Frontend Developer & Project Coordinator

May 2025 – Nov 2025

ADS LTD

Managed frontend delivery and team coordination.

- Developed complex React-based frontend interfaces.
- Coordinated team tasks and tracked KPIs for project success.
- Delivered high-quality features under strict real-world constraints.

KEY PROJECTS

OneControl

[Gemini AI, Next.js, Python]

AI-integrated hackathon project optimizing resource management and disaster response logistics.

Impact: Resource Efficiency (+30%) | Decision Accuracy (94%)

Feedly

[FastAPI, Python, React, PostgreSQL]

Health analytics application for personalized nutrition tracking and biometric analysis.

Impact: Query Optimization (+45%) | User Retention (88%)

Tech Portfolio Directory

[Next.js, Firebase, Puppeteer, Tailwind CSS]

An elegant, advanced directory aggregator for technical and creative portfolios with smart filters.

Impact: Indexed Portfolios (1,200+) | Search Latency (<80ms)

AWARDS & HONORS

Cisco Networking Academy

— Introduction to Cybersecurity & Network Badges — 2026

OneControl AI Hackathon

— 1st Place (Logistics AI Prototype) — 2025
